

DocuSign for Good: Complete Business Transactions Securely, Anytime, Anywhere

DOCUSIGN MOBILE SOLUTIONS

Transactions break down at the moment of truth. In an otherwise entirely digital process, requesting a signature to complete a transaction is a slow and error-prone practice.

Enterprises have invested in business systems for every functional area in order to keep pace with the ever-increasing speed of business. Yet at the moment of truth, when signatures are required to complete transactions, enterprises revert back to thousand-year-old technology – paper, pen and mail.

DocuSign's eSignature Transaction Management platform enables enterprises to Keep Business Digital™.

Prepare, execute, and manage the entire Electronic Signature process with DocuSign, the Global Standard for eSignature®.

- Document Preparation: Specify workflow, create reusable templates, and integrate with existing systems to pull/push data.
- Document Execution: Manage identity, authentication, and sign tamper-proof documents that are legally enforceable.
- Document Management: Gain visibility into signing status with automated reporting and complete audit trail of the entire transaction.

Introducing DocuSign Ink™ for Good. Manage and complete business transactions securely, anywhere, and anytime.

DocuSign's award winning iOS App is now available to empower eSignature Transaction Management on-the-go, while meeting IT security and data standards.

DocuSign Ink™ for Good Technology empowers:

- 1. Mobile Productivity:** Originate, Send, and Sign Documents for Signature from iPhones and iPads.
- 2. Best in-class Usability:** DocuSign for Good was built leveraging DocuSign Ink™, a 5-star rated App, named one of Apple's Best Apps of 2012 for the iPad.
- 3. BYOD Support:** Enforce IT policies with secure container separating personal and company data.

DocuSign Facts

- Trusted by over 37 million people across 188 countries

Delight Customers While Increasing the Speed of Business

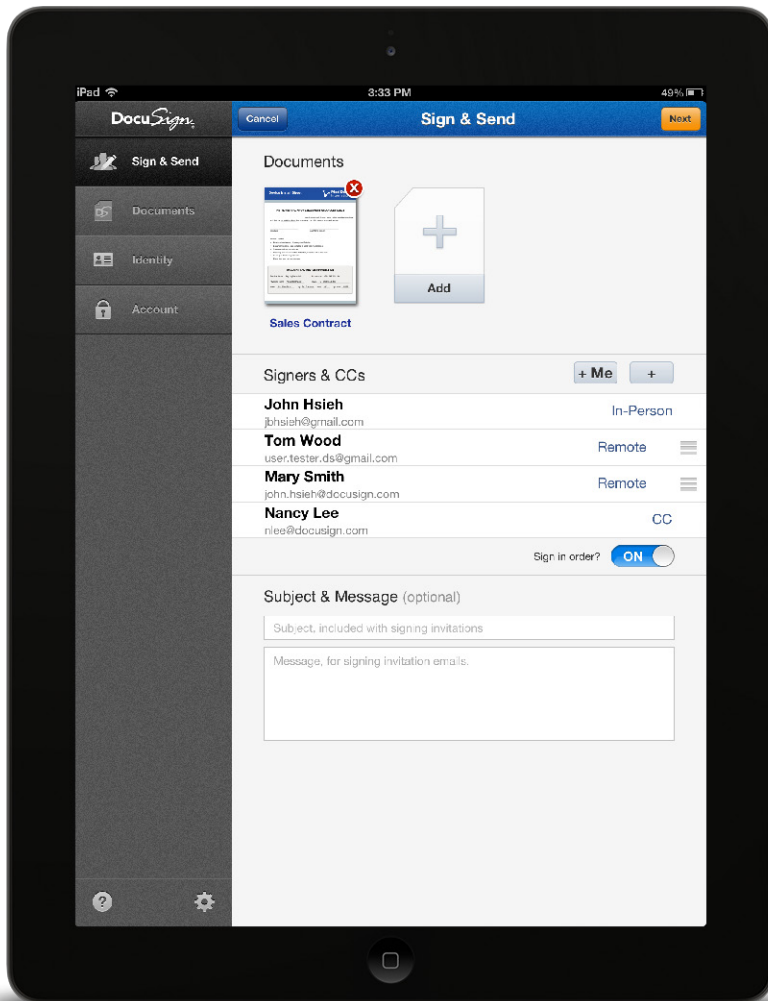

DocuSign has broad applicability and has been implemented by customers across Sales, Procurement, Finance, HR, IT, Operations, and other functional teams.

- Enable sales teams to quickly deliver contracts electronically, and track status. Take the headache out of the last day of the quarter.
- Customers can easily sign and return documents from any device. Contracts are approved more quickly resulting in faster time to revenue.
- Get approvals from busy executives, whether they are in the office, in the boardroom, or 30,000 feet in the air.

DocuSign Ink for Good

- Industry's leading mobile eSignature App now available for Good
- Securely send documents to customers, partners, suppliers, and others for signature
- Signers are taken through an intuitive and guided signing experience
- Documents are saved automatically and a complete audit trail is generated

Specify transaction workflow such as sequence of signers

Securely sign documents anywhere, anytime, on any device

View and filter document status (Out for Signature, Awaiting My Signature, Completed, Drafts)
